## BENNETT CUP IS WON BY GERMANS

Berlin II. Lands in Northern Wisconsin Wilderness.

BALLOON CONSIDERED LOST

Forest Where German Gas Bag Landed Was So Dense That It Took the Pilot and His Aide Eighteen Hours to Travel Five Miles—Near Scene of Cameron Dam Seige of Year Ago.

New York, Oct. 9.—The German balloon, Berlin II., unofficially is announced winner of the James Gordon Bennett trophy of the Aero Club of America.

Speaking for his associates in the club, Alan R. Hawley, winner of last year's international race, praised the pluck which had given the Germans the victory.

"While we regret that the trophy does not remain in this country," said Mr. Hawley, "we have nothing but praise for Lieutenant Gerike, the Berlin II. pilot, to whom we extend our heartiest congratulations. With the trophy going to Germany added zest will be given to the race next year."

Holcomb, Wis., Oct. 9.—Landing in a wilderness so dense that it took eighteen hours to get five miles to this place, the German balloon Berlin II. came to earth safely at 6:30 a. m. Saturday.

The country where the German aeronauts landed is the same district made famous by the battle of Cameron dam, with John Deitz, a year ago this month.

It is the wildest part of Wisconsin. This place itself is only a hamlet of 100 population. Had the balloonists landed ten miles farther west they would have been in a part of the state never reached except by deer hunters. The balloon had been sailing over the Minnesota and Northern Wisconsin forests for nearly twenty-four hours after the other contestants had landed, seeking for some sign of civilization.

The balloon at one time was near the Canadian line, as near as the aeronauts can explain. They then got into a back current which brought them again over the Minnesota iron ranges and cut-over pine land again to Wisconsin. It is presumed, during Friday night.

**Germans Win Cup.**

Kansas City, Oct. 9.—In winning the James Gordon Bennett trophy by traveling 468 miles in the international balloon race which started from this city Thursday, Lieutenant Hans Gerike, pilot of the Berlin II., was lost to the world for the third time.

Lieutenant Gerike was also considered lost last year in the international race which started from St. Louis. In the German balloon Dusseldorf II. he was in the air twenty-four hours, traveling 1,100 miles and landing in the wilderness of Canada from which he and his aide emerged four days later after a thrilling adventure and narrow escape from starvation.

Gerike's second escapade of this kind occurred last summer when he went up from Berlin in the German elimination race and drifted out over the North sea. He was sighted in England, but was again lost from view and finally landed in France.

In winning this year's race, Germany has taken the Bennett cup from America, which would have held it permanently if this country's representative had been victorious. America had won the championship for two successive years and a victory this year would have ended this international series. The next race will be held in Germany.

**DARKNESS STOPS FLIGHT**

Aviator Rodgers Forced to Alight Before Reaching Goal.

Chicago, Oct. 9.—Aviator C. P. Rodgers, flying from coast-to-coast, left Hammond, Ind., twenty-six miles east of here following a delay of two days, and alighted at Bruce, Ill., near Dellwood Park, thirty-five miles south from here after stopping in Chicago. He had planned to fly to Joliet, but darkness and a high wind forced him to stop within three miles of his goal.

The first stage of his journey was made at a speed of more than a mile a minute, the twenty-six miles from Hammond to Chicago being covered in twenty-four minutes.

**ITALIANS CAPTURE A FORT**

Turkish Garrison at Tobruk Overcome After a Short Struggle.

Rome, Oct. 8.—Official dispatches received here say: "Early this morning the ships of the first Italian squadron entered the roadstead at Tobruk, in Bomba bay, where they found no Turkish warships. They summoned the garrison to surrender, but the Turks replied with a flat refusal and hoisted the Turkish flag.

"The battleship Vittorio Emanuele opened fire. The first shots carried away the flag and made a large breach in the fort. Read Admiral Aubrey, commander-in-chief of the fleet, then landed several companies of marines, who, after a short struggle, overcame the resistance of the small Turkish force. Italians occupied the fort and hoisted their flag.

A few Turkish soldiers were taken prisoners.

## FLOODED TOWN IS UNDER GUARD

Militia Companies in Possession of Black River Falls, Wis.

LOOTERS CAMPED NEAR TOWN

State Troops Are Patrolling River Banks for Miles in Flood Stricken District—Supplies Still Short in Spite of Speedy Relief Extended by Surrounding Cities—City Will Not Rebuild on Old Site, It is Thought.

Black River Falls, Wis., Oct. 9.—It was reported at midnight that Company E of Eau Claire, which has arrived here for guard duty, would break camp and depart for a spot two miles down the river, where it is said a gang of looters are encamped. According to report, these pillagers have stolen many boatloads of articles swept down the river by the flood and tossed on shore several miles below the city. The militiamen, it is said, will try to capture the thieves.

Company E is encamped directly opposite the Northwestern depot on the East Side. Company D of Mauston is encamped in the West, or stricken portion of the city.

Captain E. S. Pearsall and Clayton Withersbee, respectively, are in command. Major Charles R. Williams of Camp Douglas accompanied the troops in the capacity of quartermaster.

**Militia Guards Ruins.**  
The Mauston and Eau Claire companies of state militia will guard the ruins of Black River Falls, to prevent the operations of looters, who already have started operations.

The river bank for miles down stream is being patrolled by deputy sheriffs to save property which is being washed up by the receding flood. Between five and six thousand people flocked to the scene, causing the troops considerable trouble, owing to the dangerous condition of the ground near the water.

It is believed no effort will be made to rebuild on the old site of the business section, because the ground is washed entirely away and the spot would be too low and dangerous, even though the citizens succeeded in diverting the river back into its original course.

The remainder of the concrete dam has been dynamited in an effort to put the river back into its old channel, but without success.

Although the water is receding at Black River Falls, it is still rising below there. Between Lytle and Marshall Junction a mile and a half of the Northwestern railroad was washed out, tying up traffic on this division.

Although several cities have sent supplies to the stricken city, City Clerk Parsons of Black River Falls says that unless more food arrives immediately the stricken residents would again be menaced by starvation, as there is nothing to eat in the place except what comes in from the outside.

The two carloads of provisions sent here by Eau Claire and La Crosse and the one received from the citizens of Chippewa Falls were but a few drops in a bucket, so to speak. Money contributions are coming in slowly.

**STEPHENSON CONTRIBUTES**

Wisconsin Senator Sends \$200 to Flood Sufferers.

Black River Falls, Wis., Oct. 9.—Mayor J. J. McGillivray received the following telegram from United States Senator Isaac Stephenson of Marinette, Wis.: "Am sending a letter tonight in which is inclosed a check for \$200, a contribution to the relief fund for your fellow citizens. Tonight is the anniversary of the great Peshtigo fire, where 1,100 people lost their lives. I was in charge of the mills, factories and railroad there, and worked constantly for three months in relief and rebuilding, so I can sympathize with you."

A contribution of \$100 was received from a resident of Ripon, Wis. Citizens of Tomah will send a carload of provisions.

**STATE EXPERTS ON SCENE**

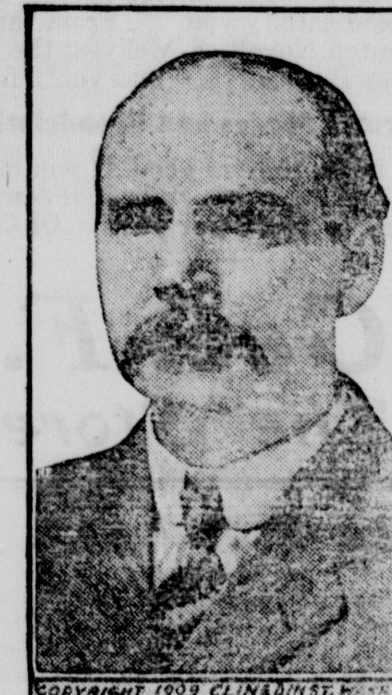

Get Data Which May Lead to State Control of Safeguarding Dams.

La Crosse, Wis., Oct. 9.—The Wisconsin State Railway commission is concerned over the Black River flood damages. W. D. Pence, chief engineer of the commission, and two other engineers have reached Hatfield from Madison. They spent the afternoon investigating ruined dykes at the dams and gathered data regarding the possibility of the commission making recommendations to the legislature providing for the construction of water power dams under state supervision. This is one of the results of the flood suggested by the appearance on the scene of the commission's experts.

**Alphabetical Lovemaking.**  
She—Are you fond of tea? He—Yes, but I like the next letter better. Exchange.

QUITS GEOLOGICAL SURVEY

Dr. C. Willard Hayes to Enter Business in Mexico.

Washington, Oct. 9.—Dr. C. Willard Hayes, chief geologist of the geological survey, and one of the most prominent scientists in the country, has resigned from the government service to enter business in Mexico.

Dr. Hayes, who had been in the survey since 1887, had much to do with the perfection of the system adopted for classifying the public lands according to their mineral worth, and has made a number of important contributions on scientific matters.

## WILL WIDEN PROBE IN ELECTION INQUIRY

To Find Out How State Officials Spent Money.

Milwaukee, Oct. 9.—Two new elements are expected to be introduced in the senatorial investigation of charges that United States Senator Isaac Stephenson's election was procured through bribery and corrupt use of money when the session is resumed for the second week of the inquiry.

What part Wisconsin state officials took in the primary campaign in 1908 when Senator Stephenson was nominated, it is expected, will be related when J. J. Stone, former state treasurer, takes the stand. According to previous witnesses more than \$2,000 was paid directly to Stone by the Stephenson campaign managers to stir up interest for the senator.

J. J. Blaine, who, as state senator, originally brought the charges before the legislature, which resulted in their being presented before the United States senate, also has been summoned to testify. Blaine's charges were that in spending \$107,793 Senator Stephenson violated the statutes and used funds corruptly to influence the legislature.

**DEITZ NOT IN "SOLITARY"**

Not Forced to Spend Anniversary of Crime in Dark Cell.

Waupun, Wis., Oct. 9.—Although Saturday, Oct. 7, the anniversary of the death of Deputy Sheriff Oscar Harp, shot during the siege of the Deitz cabin at Cameron dam, John A. Deitz was not kept in solitary confinement. His sentence ordered that he spend the anniversary of Harp's death each year in solitary confinement. This part of all sentences, it is explained, is never observed at the Wisconsin prison.

Instead of being kept in confinement Deitz received guests Saturday.

**Body of Fire Victim Found.**

Miles City, Mont., Oct. 9.—The incinerated remains of Harry Sutton, an elderly man and a paralytic, who was burned in a fire at the Bennett Sheep company's ranch on Moon creek, have been brought in. The fire was of accidental origin.

**TO CONFER WITH PRESIDENT**

Indian Chiefs Will Meet Taft at Rapid City, S. D.

Rapid City, S. D., Oct. 9.—Demanding a return of the Black Hills territory and all of Rapid City, which they allege was taken from them wrongfully by the treaty of 1876, famous chiefs of the Brule and Ogallala Sioux conferred with Congressman Eben W. Martin. Congressman Martin explained the treaty and invited the chiefs to meet President Taft when he visited Rapid City Oct. 21.

Chiefs Crow Dog and Red Wark said they have retained lawyers and will fight their case in court.

**Blows on Head Are Fatal.**

Mason City, Ia., Oct. 9.—O. J. Healey, whose skull was fractured at the base of the brain from blows received when an effort was made to separate him and Gus Monrois, who were fighting, is dead after remaining unconscious forty-eight hours. Six have been arrested.

## BETTER ROADS SEEM ASSURED

Federal Aid For Improvement Is Thought Likely.

ONLY WAY TO WIN SUCCESS.

People Have Learned That They Must Depend on National Government For Reforms—Many Men In Congress Have Expressed Themselves as Favorable to the Proposition.

By ARTHUR W. DUNN.  
Washington, Oct. 9.—[Special.]—The foundation was laid during the session of congress recently closed for something tangible in the way of good roads. Associations for the improvement of roads have been organized in all parts of the country, and states are making efforts to do something for their highways.

It has come to be very well understood that unless the general government takes hold of the matter there can be no real success in the movement. More than that, the people have learned in late years to depend upon the general government for reforms and betterments, and for nearly every ill that afflicts them they ask a government balm. Consequently the road movement has become a live issue in national affairs.

**Rural Routes the Wedge.**

The number of men in congress who have expressed an interest in the subject shows how deep seated is the movement to get government aid and money for the construction of roads. If the expressions of opinion of members of congress is any criterion it will be hard for those who oppose the use of government funds for building roads to withstand the movement.

It is the intention of the men who are seeking government money for roads to make the improvement of rural free delivery routes the entering wedge. The constitution says that congress may establish postoffices and post roads. Then why not improve such roads? ask the advocates of the good roads movement. The speeches, the petitions and the earnest arguments all look toward final success in a few years.

**National Committees to Meet.**  
Soon after congress assemblies there will be two other very important political meetings in Washington. Both of the national committees will meet to fix times and places for the national conventions of 1912. More political significance will be given these meetings than they are really entitled to for the reason that they will do very little in the way of shaping the action of the nominating conventions.

The fact that the committees will later pass upon the temporary roll of the convention makes them a little important when there are many contests but otherwise the old national committees do not have much to say about the naming of candidates or making of platforms. The meeting of the Republican national committee will be important in determining whether Postmaster General Hitchcock is still chairman or whether he has designated some other man to act in his place.

**The Economy Commission.**  
Congress will try to economize in making appropriations during the coming session, and it is expected that they will have the benefit of President Taft's economy commission, which has been at work for nearly two years seeking how to save in the management of the government business.

It is expected that this commission will report that the saving to be made consists in discharging a few hundred clerks and in relaxing in some ways the methods of auditing and checking of government accounts. The commission cannot recommend a saving of any very large amount, and it is doubtful whether the proposed changes will appeal to congress when it means the discharge of employees.

**Loophole Big Expenditures.**

It has been demonstrated again and again that the only way to make a real saving in expenditures is to lop off the big things. Cutting down the army and navy, cutting down river and harbor appropriations, reducing the pension appropriations, cutting off high salaries, and in fact making a real attempt toward economy is the only way to make an impression.

The saving of a million dollars out of a thousand millions by cutting off a clerk here and there and by changing the methods of doing business will not be very effective. The real test will come when congress comes to make appropriations for the big things which mount into a hundred million dollars quickly.

**Pure Food Legislation.**

It is already apparent that the friends and foes of pure food legislation are lining up for a big fight in the coming congress. Everybody supposed to have influence is being circularized by both sides, one in the interest of strengthening the hands of Dr. Wiley and the other in favor of more liberal construction of the pure food law. A supreme court decision has made it necessary to amend the pure food law in relation to patent medicines and drugs. It is expected that this amendment will mean quite a lengthy pure food fight.

**Illinois Bank Robbed.**

Chicago, Oct. 9.—The State bank of Bensenville, Dupage county, Ill., was wrecked by dynamite and the safe robbed. The amount of money taken by the robbers has not been ascertained.

JOSEPH V. QUARLES IS DEAD

United States Judge and Former Senator from Wisconsin.

Milwaukee, Wis., Oct. 9.—United States circuit Judge Joseph V. Quarles is dead here. Judge Quarles had been in poor health for about a year. Twelve months ago he suffered an acute attack of grip, and for the last six weeks had been confined to his home.

He assumed the bench in 1905 shortly after his term as United States senator expired. Judge Quarles was sixty-eight years old.

## ITALY MAY NOT NOW EXACT INDEMNITY

Provided Turkey Would Conclude Peace on Right Terms.

London, Oct. 9.—Most of the Constantinople correspondents agree that Turkey is renewing her efforts to obtain peace, but differ as to the procedure to be followed—whether by arbitration through an European conference or by other means.

According to reports from Rome, Italy, which at one time was ready to pay Turkey a large compensation, now will pay nothing, although she would not impose a war indemnity if peace is concluded forthwith. If hostilities are prolonged, however, the reports say, Italy will insist upon a heavy indemnity.

Italian reports tell of the sinking of two Turkish torpedo boats with a loss of 300 Turks at San Giovanni di Medua. The Turkish versions minimize the affair.

The Chronicle's Constantinople correspondent says there is great activity on the part of the Italian warships through the archipelago and in the Ionian and Red seas. It is believed their intention is to blockade the Dardanelles.

Reports are current that Said Pasha will resign and Kiamil Pasha become grand vizier. There are indications throughout the Turkish dominions of an energetic spirit in favor of a holy war, but in Constantinople the people pray constantly for peace.

Turkey has sent another note to the powers asking for intervention and offering to grant every reasonable concession to Italy.

**QUIET REIGNS IN TRIPOLI**

Austrian Scientist Says Europeans Are Not Endangered.

Malta, Oct. 9.—Prof. Artbauer, chief of the Austrian scientific mission, who has arrived here from Tripoli, says the town now is tranquil. Europeans are not endangered and only 1,000 Turkish soldiers remain in the hinterland. The Arabs, however, he says, already are organizing guerrilla bands and intend to put up a dogged resistance.

Prof. Artbauer expresses the opinion that if Italy is content with the occupation of Tripoli her mission might be considered ended, but if she intends to embark upon a campaign in the hinterland it will take years to subdue the natives.

**Helpful Son-in-law.**

"So you asked my wife for her daughter's hand, did you?" said the father.

"I did, and she began to give me a piece of her mind about my presumption, and I—"

"And you beat a retreat and came to see me. Well, sir?"

"Oh, no! I didn't retreat. I argued it out with her, and before I left she had given me her consent. So I—"

"You did? Truly for you! You can have the girl, and you can live right here with us. I want to study your system of defying my wife for a year or so anyway."—Woman's World.

**Seven Battleships for Japan.**

Tokio, Oct. 9.—It is estimated that the naval budget will call for 350,000 yen to be spent for seven battleships, two armored cruisers, each of 30,000 tons, and numerous smaller war vessels.

## MEN ANXIOUS RETURN TO WORK

LOWER RIVERS ARE RISING

Hay Bottoms North of La Crosse Are Flooded.

La Crosse, Wis., Oct. 9.—The Black and Mississippi rivers are rising rapidly at this point and thousands of acres of farm lands north of here are under water. Farmers have driven their stock to the highlands, and many have moved their household goods from their residences.

All hay barns on the Black river bottoms for twenty miles to the north are under water. Hunters' bridge, sixteen miles north, still stands, but with water within a foot of the floor, the structure is pronounced unsafe.

Thus far the railroads have experienced no washouts in this vicinity, although the flood is dangerously near the right of way in many places, and requires constantly the vigil of section crews.

**TO PROSECUTE, CRIMINALLY**

Papers in Suit Against United States Steel Corporation Ready to File.

New York, Oct. 9.—A special to the World under Washington date says: "There will be criminal prosecution of officials of trusts, according to the announcement made at the department of justice. Who these officials are the department would not make known."

"Meanwhile at the office of Attorney General Wickersham, awaiting his return from New York are the papers in a suit ready for filing against the United States Steel corporation. The bill of complaint contains two specific charges—first the violation of that section of the Sherman anti-trust law prohibiting unreasonable combinations in restraint of trade; second, a violation of the Elkins interstate commerce law."

QUIET PREVAILS AMONG MEN

Vice President Park of the Illinois Central Says Strikers Are Dissatisfied With Way in Which Strike Was Called and Are Desirous of Resuming Their Work—Union Officials Deny Statement.

Chicago, Oct. 9.—Quietness prevails in the strike of shop workers on the Illinois Central and other Harriman roads, according to the announcement of railroad officials.

Officials assert that the men are becoming dissatisfied with the way the strike was called and that many of the local unions are demanding that it be ended.

Union leaders, however, maintain that the men are satisfied and are prepared to remain out all winter if necessary to gain their demands.

Vice president W. L. Park of the Illinois Central issued the following statement:

"The men unquestionably are dissatisfied with the way the strike was called and its purpose. Leaders attempted to put something over them and it will not go.

"The boilermakers in one of the Western towns held a meeting Saturday and practically decided to return to work.

"Some of the machinists' lodges are demanding that the strike be called off. Machinists at Paducah have sent a telegram to President James O'Connell of their international organization protesting against the strike and declaring that they never had been given an opportunity to vote on the question of becoming members of the system federation.

"Train movements continue satisfactory, and on the lines west of Chicago the effect of the strike is not felt at all."

President Markham of the road left late Saturday for Jackson, Miss., to attend a conference arranged by Governor Noel of Mississippi to discuss the strike situation. He was accompanied by a member of the legal department of the road.

Officials of the Harriman roads asserted that the men are returning to work in many of the Western cities.

**MAYOR MAY TAKE A HAND**

New Orleans Executive Says He Will Exercise "Moral Right."

New Orleans, La., Oct. 9.—Five thousand workmen gathered on the river front in a mass meeting called by Illinois Central strikers, heard Mayor Behrman pledge himself to exercise his "moral right" to compel the railroad company to deport all "undesirables" who may be brought in here to take strikers' places.

"I can't keep these people out under any law," the mayor said, "but I have a moral right to keep out such as are undesirable or who may become charges upon the community which you workmen help to support and I propose to exercise that moral right."

Governor Sanders of Louisiana also addressed the strikers and said he sympathized with them as individuals, but as governor he had to see that justice was done to both sides.

There was no violence during the day, but the police are investigating the burning of a small Illinois Central warehouse early this morning. The loss was about \$50,000.

eighteen hours to get five miles to this  
place, the German balloon Berlin II.  
came to earth safely at 6:30 a. m.  
Saturday.The country where the German

Friday night.

## Germans Win Cup.

Kansas City, Oct. 9.—In winning  
the James Gordon Bennett trophy by  
traveling 468 miles in the international  
balloon race which started from this  
city Thursday, Lieutenant Hans  
Genicke, pilot of the Berlin II., was  
lost to the world for the third time.Lieutenant Gerike was also consid-  
ered lost last year in the international  
race which started from St. Louis.  
In the German balloon Dusseldorf II. he  
was in the air twenty-four hours, trav-  
eling 1,199 miles and landing in the  
wilderness of Canada from which he  
and his aide emerged four days later  
after a thrilling adventure and narrow  
escape from starvation.Gerike's second escapade of this  
kind occurred last summer when he  
went up from Berlin in the German  
elimination race and drifted out over  
the North sea. He was sighted in  
England, but was again lost from view  
and finally landed in France.In winning this year's race, Ger-  
many has taken the Bennett cup from  
America, which would have held it  
permanently if this country's repre-  
sentative had been victorious. America  
had won the championship for two  
successive years and a victory this  
year would have ended this interna-  
tional series. The next race will be  
held in Germany.

## ITALIANS CAPTURE A FORT

Turkish Garrison at Tobruk Overcome  
After a Short Struggle.Rome, Oct. 8.—Official dispatches  
received here say:  
"Early this morning the ships of the  
first Italian squadron entered the  
roadstead at Tobruk, in Bomba bay,  
where they found no Turkish war-  
ships. They summoned the garrison  
to surrender, but the Turks replied  
with a flat refusal and hoisted the

opened fire. The first shots carried  
away the flag and made a large breach  
in the fort. Read Admiral Aubrey,  
commander-in-chief of the fleet, then  
landed several companies of marines,  
who, after a short struggle, overcame  
the resistance of the small Turkish

## LOOTERS CAMPED NEAR TOWN

State Troops Are Patrolling River  
Banks for Miles in Flood Stricken  
District—Supplies Still Short in  
Spite of Speedy Relief Extended by  
Surrounding Cities—City Will Not  
Rebuild on Old Site, It is Thought.Black River Falls, Wis., Oct. 9.—It  
was reported at midnight that Com-  
pany E of Eau Claire, which has ar-  
rived here for guard duty, would  
break camp and depart for a spot two  
miles down the river, where it is said  
a gang of looters are encamped. Ac-  
cording to report, these pillagers have  
stolen many boatloads of articles  
swept down the river by the flood and  
tossed on shore several miles below  
the city. The militiamen, it is said,  
will try to capture the thieves.Company E is encamped directly  
opposite the Northwestern depot on  
the East Side. Company D of Maun-  
ton is encamped in the West, or stricken  
portion of the city.Captain E. S. Pearsall and Clayton  
Withersbee, respectively, are in com-  
mand. Major Charles R. Williams of  
Camp Douglas accompanied the  
troops in the capacity of quartermas-  
ter.Militia Guards Ruins.  
The Mauston and Eau Claire com-  
panies of state militia will guard the  
ruins of Black River Falls, to prevent  
the operations of looters, who already  
have started operations.The river bank for miles down  
stream is being patrolled by deputy  
sheriffs to save property which is be-  
ing washed up by the receding flood.  
Between five and six thousand peo-  
ple flocked to the scene, causing the  
troops considerable trouble, owing to  
the dangerous condition of the ground  
near the water.It is believed no effort will be made  
to rebuild on the old site of the busi-  
ness section, because the ground is  
washed entirely away and the spot  
would be too low and dangerous, even  
though the citizens succeeded in di-  
verting the river back into its original  
course.The remainder of the concrete dam  
has been dynamited in an effort to  
put the river back into its old chan-  
nel, but without success.Although the water is receding at  
Black River Falls, it is still rising be-  
low there. Between Lytle and Mar-  
shall Junction a mile and a half of  
the Northwestern railroad was washed  
out, tying up traffic on this division.Although several cities have sent  
supplies to the stricken city, City  
Clerk Parsons of Black River Falls  
says that unless more food arrives im-  
mediately the stricken residents would  
again be menaced by starvation, as  
there is nothing to eat in the place  
except what comes in from the out-  
side.The two carloads of provisions sent  
here by Eau Claire and La Crosse and  
the one received from the citizens of  
Chippewa Falls were but a few drops  
in a bucket, so to speak. Money con-  
tributions are coming in slowly.

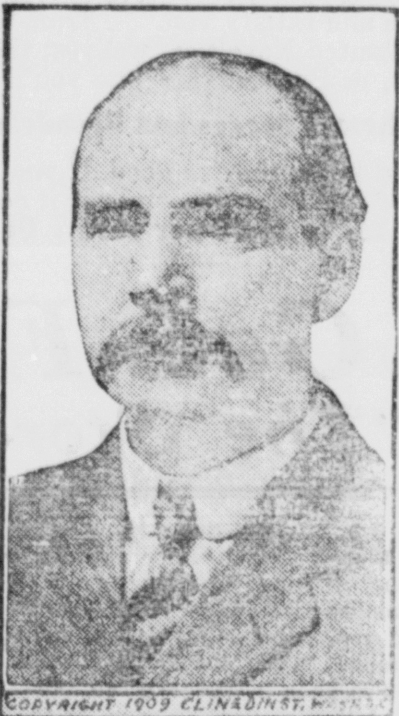

## STEPHENSON CONTRIBUTES

Wisconsin Senator Sends \$200 to Flood  
Sufferers.Black River Falls, Wis., Oct. 9.—  
Mayor J. J. McGilivray received the  
following telegram from United States  
Senator Isaac Stephenson of Mari-  
nette, Wis.: "Am sending a letter  
tonight in which is inclosed a check  
for \$200, a contribution to the relief  
fund for your fellow citizens. Tonight  
is the anniversary of the great Pesht-  
igo fire, where 1,100 people lost their  
lives. I was in charge of the mills,  
factories and railroad there, and  
worked constantly for three months in  
relief and rebuilding, so I can sym-  
pathize with you."A contribution of \$100 was received  
from a resident of Ripon, Wis. Cit-  
izens of Tomah will send a carload of  
provisions.

## STATE EXPERTS ON SCENE

Get Data Which May Lead to State  
Control of Safeguarding Dams.La Crosse, Wis., Oct. 9.—The Wis-  
consin State Railway commission is  
concerned over the Black river flood  
damages. W. D. Pence, chief engineer  
of the commission, and two other en-  
gineers have reached Hatfield from  
Madison. They spent the afternoon  
investigating ruined dykes at the  
dams and gathered data regarding the  
possibility of the commission making  
recommendations to the legislature  
providing for the construction of wa-  
ter power dams under state super-  
vision. This is one of the results of the  
flood suggested by the appearance on  
the scene of the commission's experts.Alphabetical Lovemaking.

## QUITS GEOLOGICAL SURVEY

Dr. C. Willard Hayes to Enter Busi-

Hayes, chief geologist of the geological  
survey, and one of the most prominent  
scientists in the country, has resigned  
from the government service to enter  
business in Mexico.Dr. Hayes, who had been in the sur-  
vey since 1887, had much to do with  
the perfection of the system adopted  
for classifying the public lands accord-  
ing to their mineral worth, and has  
made a number of important contribu-  
tions on scientific matters.WILL WIDEN PROBE IN  
ELECTION INQUIRYTo Find Out How State Officials  
Spent Money.Milwaukee, Oct. 9.—Two new ele-  
ments are expected to be introduced  
in the senatorial investigation of  
charges that United States Senator  
Isaac Stephenson's election was pro-  
cured through bribery and corrupt  
use of money when the session is re-  
sumed for the second week of the in-  
quiry.What part Wisconsin state officials  
took in the primary campaign in 1908  
when Senator Stephenson was nomi-  
nated, it is expected, will be related  
when J. J. Stone, former state game  
warden, takes the stand. According  
to previous witnesses more than \$2,  
000 was paid directly to Stone by the  
Stephenson campaign managers to stir  
up interest for the senator.J. J. Blaine, who, as state senator,  
originally brought the charges before  
the legislature, which resulted in their  
being presented before the United  
States senate, also has been sum-  
moned to testify. Blaine's charges  
were that in spending \$107,793 Sena-  
tor Stephenson violated the statutes  
and used funds corruptly to influence  
the legislature.

Deitz received guests Saturday.

## ONLY WAY TO WIN SUCCESS.

People Have Learned That They Must  
Depend on National Government For  
Reforms—Many Men in Congress  
Have Expressed Themselves as Fa-  
vorable to the Proposition.

By ARTHUR W. DUNN.

Washington, Oct. 9.—[Special.]—The  
foundation was laid during the session  
of congress recently closed for some-  
thing tangible in the way of good  
roads. Associations for the improve-  
ment of roads have been organized in  
all parts of the country, and states  
are making efforts to do something for  
their highways.It has come to be very well under-  
stood that unless the general govern-  
ment takes hold of the matter there  
can be no real success in the move-  
ment. More than that, the people  
have learned in late years to depend  
upon the general government for re-  
forms and betterments, and for nearly  
every ill that afflicts them they ask a  
government balm. Consequently the  
road movement has become a live  
issue in national affairs.

## Rural Routes the Wedge.

The number of men in congress who  
have expressed an interest in the sub-  
ject shows how deep seated is the  
movement to get government aid and  
money for the construction of roads.  
If the expressions of opinion of mem-  
bers of congress in any criterion it  
will be hard for those who oppose the  
use of government funds for building  
roads to withstand the movement.It is the intention of the men who  
are seeking government money for  
roads to make the improvement of ru-  
ral free delivery routes the entering  
wedge. The constitution says that con-  
gress may establish postoffices and post  
roads. Then why not improve such  
roads? ask the advocates of the good  
roads movement. The speeches, the  
petitions and the earnest arguments all  
look toward final success in a few  
years.

## National Committees to Meet.

Soon after congress assemblies there  
will be two other very important polit-  
ical meetings in Washington. Both of  
the national committees will meet to  
fix times and places for the national  
conventions of 1912. More political  
significance will be given these meet-  
ings than they are really entitled to  
for the reason that they will do very  
little in the way of shaping the action  
of the nominating conventions.The fact that the committees will  
later pass upon the temporary roll of  
the convention makes them a little im-  
portant when there are many contests  
but otherwise the old national com-  
mittees do not have much to say about  
the naming of candidates or making of  
platforms. The meeting of the Repub-  
lican national committee will be im-  
portant in determining whether Post-  
master General Hitchcock is still chairman  
or whether he has designated some other  
man to act in his place.

## The Economy Commission.

Congress will try to economize in  
making appropriations during the com-  
ing session, and it is expected that they  
will have the benefit of President Taft's  
economy commission, which has been  
at work for nearly two years seeking  
how to save in the management of the  
government business.It is expected that this commission  
will report that the saving to be made  
consists in discharging a few hundred  
clerks and in relaxing in some ways  
the methods of auditing and checking  
of government accounts. The commis-  
sion cannot recommend a saving of any  
very large amount, and it is doubtful  
whether the proposed changes will ap-  
peal to congress when it means the dis-  
charge of employees.

## Lop Off Big Expenditures.

It has been demonstrated again and  
again that the only way to make a  
real saving in expenditures is to lop  
off the big things. Cutting down the  
army and navy, cutting down river  
and harbor appropriations, reducing  
the pension appropriations, cutting off  
high salaries, and in fact making a  
real attempt toward economy is the  
only way to make an impression.The saving of a million dollars out  
of a thousand millions by cutting off  
a clerk here and there and by chang-  
ing the methods of doing business will  
not be very effective. The real test  
will come when congress comes to  
make appropriations for the big things  
which mount into a hundred million  
dollars quickly.

## Pure Food Legislation.

It is already apparent that the  
friends and foes of pure food legisla-  
tion are lining up for a big fight in  
the coming congress. Everybody sup-  
posed to have influence is being cir-  
cularized by both sides, one in the in-  
terest of strengthening the hands of  
Dr. Wiley and the other in favor of  
more liberal construction of the pure  
food law. A supreme court decision  
has made it necessary to amend the  
pure food law in relation to patent  
medicines and drugs. It is expected  
that this amendment will mean quite  
a lengthy pure food fight.

tained.

## JOSEPH V. QUARLES IS DEAD

United States Judge and Former Sen-  
ator from Wisconsin.Milwaukee, Wis., Oct. 9.—United  
States circuit Judge Joseph V. Quarles  
is dead here. Judge Quarles had been  
in poor health for about a year.  
Twelve months ago he suffered an  
acute attack of grip, and for the last  
six weeks had been confined to his  
home.He assumed the bench in 1905 short-  
ly after his term as United States sena-  
tor expired. Judge Quarles was  
sixty-eight years old.ITALY MAY NOT NOW  
EXACT INDEMITYProvided Turkey Would Conclude  
Peace on Right Terms.London, Oct. 9.—Most of the Con-  
stantinople correspondents agree that  
Turkey is renewing her efforts to ob-  
tain peace, but differ as to the pro-  
cedure to be followed—whether by ar-  
bitration through an European con-  
ference or by other means.According to reports from Rome,  
Italy, which at one time was ready to  
pay Turkey a large compensation, now  
will pay nothing, although she would  
not impose a war indemnity if peace is  
concluded forthwith. If hostilities  
are prolonged, however, the reports  
say, Italy will insist upon a heavy in-  
demnities.Italian reports tell of the sinking of  
two Turkish torpedo boats with a loss  
of 300 Turks at San Giovanni di  
Medua. The Turkish versions mini-  
mize the affair.The Chronicle's Constantinople cor-  
respondent says there is great activity  
on the part of the Italian warships  
throughout the archipelago and in the  
Ionian and Red seas. It is believed  
their intention is to blockade the Dar-  
danelles.Reports are current that Said Pasha  
will resign and Kiamil Pasha become  
grand vizier. There are indications  
throughout the Turkish dominions of  
an energetic spirit in favor of the holy  
war, but in Constantinople the peo-  
ple pray constantly for peace.Turkey has sent another note to the  
powers asking for intervention and of-  
fering to grant every reasonable con-  
cession to Italy.

## QUIET REIGNS IN TRIPOLI

Austrian Scientist Says Europeans  
Are Not Endangered.Malta, Oct. 9.—Prof. Artbauer, chief  
of the Austrian scientific mission, who  
has arrived here from Tripoli, says  
the town now is tranquil. Europeans  
are not endangered and only 1,000  
Turkish soldiers remain in the hin-  
terland. The Arabs, however, he says,  
already are organizing guerrilla bands  
and intend to put up a dogged resist-  
ance.Prof. Artbauer expresses the opin-  
ion that if Italy is content with the  
occupation of Tripoli her mission  
might be considered ended, but if she  
intends to embark upon a campaign  
in the hinterland it will take years to  
subdue the natives.

## Helpful Son-in-law.

"So you asked my wife for our  
daughter's hand, did you?" said the  
stern father."I did, and she began to give me a  
piece of her mind about my persump-  
tion, and I—""And you beat a retreat and came  
to see me. Well, sir—""Oh, no! I didn't retreat. I argued  
it out with her, and before I left she  
had given me her consent. So I—""You did? Bully for you! You can  
have the girl, and you can live right  
here with us. I want to study your  
system of defying my wife for a year  
or so anyway."—Woman's World.

## Seven Battleships for Japan.

Tokio, Oct. 9.—It is estimated that  
the naval budget will call for 350,000,  
000 yen to be spent for seven battle-  
ships, two armored cruisers, each of  
30,000 tons, and numerous smaller war  
vessels.MEN ANXIOUS  
RETURN TO WORKLOWER RIVERS ARE RISING  
Hay Bottoms North of La Crosse Are  
Flooded.La Crosse, Wis., Oct. 9.—The Black  
and Mississippi rivers are rising rap-  
idly at this point and thousands of acres  
of farm lands north of here are under  
water. Farmers have driven their  
stock to the highlands, and many have  
moved their household goods from  
their residences.All hay barns on the Black river  
bottoms for twenty miles to the north  
are under water. Hunters' bridge, six-  
teen miles north, still stands, but with  
water within a foot of the floor, the  
structure is pronounced unsafe.Thus far the railroads have experi-  
enced no washouts in this vicinity,  
although the flood is dangerously near  
the right of way in many places, and  
requires constantly the vigil of section  
crews.

announcement made at the depart-  
ment of justice. Who these officials  
are the department would not make  
known.""Meanwhile at the office of Attor-  
ney General Wickersham, awaiting  
his return from New York are the  
papers in a suit ready for filing against  
the United States Steel corporation.  
The bill of complaint contains two  
specific charges—first the violation of  
that section of the Sherman anti-trust  
law prohibiting unreasonable com-

### Fish Need Air.

Fishes, like all other animals, need air. If they could not get it they would be suffocated, just as you would if you were locked in an air tight trunk. When the sea is frozen for miles, as in the Arctic ocean, the fishes find it very hard to come to the top and must then "breathe" the air which is dissolved in the water. You have often seen the tiny bubbles which collect on the inside of a glass which has been standing full of water overnight. Well, that is the air which has been dissolved in the water, and after the glass has been tapped, so that all these bubbles come to the top, fishes could not live in that water. In other words, they would drown.

## AIR LINE TO THE BORDER

Minneapolis & St. Louis and Iowa Central Railroads Will Build Line Into Canada

## WILL TAP THE CUYUNA RANGE

Brainerd and Bemidji Stand Good Show of Being On This Railway Extension

Events are so shaping themselves that it is highly probable that the Minneapolis & St. Louis and Iowa Central railroads will build their air line railway extension into Canada through Brainerd and the Cuyuna range and northward through Bemidji and on to Winnipeg.

Newman Erb, the president of these railway lines, arrived in Minneapolis Saturday morning and made definite statement that the Hawley line will be extended into Canada.

Mr. Erb admitted that the Minneapolis & St. Louis will lease the Iowa Central line.

The rapid development of Northern Minnesota, more especially northern Minnesota, has each succeeding year been attracting the attention of the heads of the big transportation companies, with the result that the roads are closely watching every movement that would indicate the building of a new line.

That portion of the north country which appears to appeal strongly to the railway companies is the iron range district near and in Brainerd as well as the country adjacent to the Upper and Lower Red Lakes and to the Canadian boundary.

A proposed road from the twin cities to Winnipeg would undoubtedly be considered from an "air line" standpoint, and a glance at the railway map over the territory between these two points shows a line running through the Cuyuna range country at Brainerd, on northeasterly through Bemidji and extending over the proposed Bemidji-Warroad route to a connection with the Canadian Northern at Warroad or the Grand Trunk Pacific at Rennie, Man., and utilizing either or both of the Canadian lines to Winnipeg.

## MISSIONARY LECTURE

At Presbyterian Church Tonight Rev. A. E. Andre, Will Tell of His Work in China

At the Presbyterian church this evening, Rev. A. E. Andre, formerly a resident of Brainerd, will tell of his work as a missionary among the Chinese and will illustrate his lecture with stereopticon pictures which he took. The lecture is very interesting and all are invited to attend it.

Rev. Andre is the son of A. P. Shoberg. He attended the Brainerd high school at the time Prof. Cobb, Mr. Gould and Miss Winchel were on the faculty.

He left Brainerd in 1892 and went first to India where he did missionary work about four years, returning to this country in 1896. He went to China in 1898 and his work in the cause of the church was done in central China under the auspices of the Swedish Missionary convention.

His 150 stereopticon views of China depict scenes of the country and the experiences he had while there. Rev. Andre spoke Sunday morning and evening at the Swedish Mission church and also delivered an address in the afternoon at the Y. M. C. A. building. He makes his home now at Minneapolis where he is in charge of the Elgin Mission church.

## RELIGIOUS CENSUS FOR BRAINERD

A Union Meeting Will Be Held at the First Methodist Church Thursday to Consider it

ADDRESS BY A. M. LOCKER

Secretary of the State Sunday School Association, and all Workers are Invited

Religious workers of the city have become much interested in the advisability of having a religious census taken of the city and have interested Mr. A. M. Locker in the project. He is the secretary of the State Sunday School association and has assisted the larger cities of the state in the movement. The virtue of the census is in the fact that after the census is taken a report is made to each pastor and he then knows definitely just how many people there are in the city who class themselves with his church or who, in the event of allying themselves with a church would prefer his church. It digs out hundreds of church letters and brings many into active church work who have been overlooked.

It is one movement in which Catholics and Protestants of other cities have united. They have worked together in many cities of the state as it brings to one church as much as to the other.

The meeting will be held in the Methodist church on Thursday evening. All religious workers are urged to attend.

This will be a union service and there will be no prayer meeting service in any of the Protestant churches.

## Rossini-Gronquist

Nicholas Rossini and Miss Mary Gronquist were married at Spokane, Wash., on September 28. They will make their home in Winchester, Idaho. The groom is the son of Mrs. Katie Rossini. The bride is the daughter of Mrs. C. Gronquist. Their many friends wish them much happiness and prosperity.

## PRESIDENT'S DAY AT MUSICAL CLUB

Opening of Club on Saturday Afternoon Proves an Event of Great Interest and Pleasure

## NEW YEAR BOOK DISTRIBUTED

Mrs. C. A. Weyerhaeuser and Miss Millsbaugh, of Little Falls, Take Part in Program

The opening of the Musical club on Saturday afternoon was an event of unusual interest and pleasure.

The large audience that filled Elks hall could but show the important place the club has come to hold in our city.

The new year book with its comprehensive outline, both for the musical department and for the travel class, was distributed among the members.

Mrs. Henry I. Cohen, the capable new president, in her welcoming address gave a brief resume of the previous years and an inspiring picture for the future.

The delightful program which followed was in charge of Mrs. Henry I. Cohen and Mrs. W. H. Gemell.

It was a decided pleasure to hear again, Mrs. Charles A. Weyerhaeuser and Miss Florence Millsbaugh, of Little Falls, who strengthened the pleasing impression they had previously created.

Mrs. Weyerhaeuser put her audience in accord with her songs by her explanatory talks.

The first group of German songs, "Wanderer's Nightingale" by Franz Peter Schubert; "Gute Nacht," by Robert Franz; and "Fuer Musik" by Robert Franz, were beautifully sung. In "Mein Schatzlein," by Max Reger; "Allerseelen," by Richard Strauss; and "Nelken," by Felix Weingartner, Mrs. Weyerhaeuser gave an artistic interpretation of the modern German song.

In the English group "Beware of the Hawk, My Boy" from Natoma by Victor Herbert; "Daman" by Max Stange, and "Time Enough" by Ethelbert Nevin, Mrs. Weyerhaeuser gave full scope to her clear, powerful voice.

Her last selection, "Speak Love" by Ardit was well chosen for the close of the program and left a beautiful impression.

Miss Florence Millsbaugh proved herself a most charming and sympathetic accompanist. In her solo work she delighted the audience by her rendition of Beethoven's "Sonata Pathetique," skillfully bringing out its clinging sadness. Her interpretation of Grieg in the "Minuet" and "Ich Liebe Dich" were pleasing.

Mrs. C. L. Burnett, in her usual charming manner, gave a reading and she graciously responded with an encore.

A social hour followed during which dainty refreshments were served by the house committee, Mrs. N. H. Ingersoll, Mrs. F. W. Wieland and Mrs. C. B. White.

## A PLEASANT ANNIVERSARY

Forty Years Ago Today Judge G. W. Holland Became Citizen of Brainerd

Judge G. W. Holland looked at his calendar today when the writer entered and remarked in a reminiscent mood: "It was 40 years ago today that I became a citizen of Brainerd. There wasn't much of a town then, about 300 to 400 people in Brainerd. The town extended along Front street from Third to Fifth streets. The principal business section was between Fourth and Fifth. There was no bank located there at that time. The years past have made a great change in Brainerd and no one appreciates it more than I do, having watched its growth and doing what I could in its development."

## Card of Thanks

I wish to express my sincere thanks to the many friends and members of the different orders, especially the Odd Fellows, for their kindness and sympathy, also for the beautiful floral tributes on the death of my beloved husband.

## WAS A WITNESS IN DUMAS TRIAL

C. D. Herbert, the Brainerd Restaurant Man, Gives Testimony Saturday at Bemidji

## FAILS TO IDENTIFY SMYTH

Rev. Parshall, Pastor of the Episcopal Church, Testifies as to Dumas' Character

Brainerd has furnished a witness in the Dumas trial in the closing hours of that famous case.

On Saturday C. D. Herbert, the Brainerd restaurant man, testified he was in Bemidji on June 14 at the Rex hotel at about the time Dr. Dumas met Smyth.

He told of seeing a man at the Rex who resembled Dr. Dumas, and that he was talking to another man "with a black mustache, pretty tall and thin." Smyth, who is small and has no mustache, was brought into the court room for identification, but when asked to answer by "yea" or "no," whether Smyth was the man he saw with Dr. Dumas, the witness replied, "I can't say."

Concluding with Rev. Parshall, pastor of the Episcopal church, at Cass Lake, as a character witness, the defense rested in the Dumas case Saturday noon. There was a general surprise that Dr. Dumas was not called to testify in his own behalf, but Attorney Lane said the defendant would have no more witnesses unless something unforeseen occurred. Efforts were made to get the Dumas case into the hands of the jury Saturday afternoon.

## GOPHERS DEFEAT COYOTES

In a Poorly Played Game at Minneapolis on Saturday by Score of 5 to 0

Playing a crude and ragged game from start to finish Minnesota defeated South Dakota at Northrop field Saturday afternoon by the score of 5 to 0. The score resulted from a touchdown made in the first few minutes of the first quarter, when Minnesota rushed the Coyotes off their feet, and after that the Gophers were met with an offense that at times threatened to overwhelm them.

The South Dakotans showed splendid fighting spirit and were dangerous to Minnesota until the final whistle. Stevens, Minnesota's right half, made the touch down by going through the left side of the South Dakota line. The ball went under the goal posts and a kickoff was unnecessary. Capt. Pickering failed to kick goal.

## TO INSPECT THE STATE DITCHES

Gov. Eberhart and Entire State Drainage Board to Pass Through Brainerd Tonight

## WILL TRAVEL OVER THE M. & I.

General Manager W. H. Gemmell Will Accompany the Party From St. Paul

Governor A. O. Eberhart and the entire state drainage board will leave St. Paul this evening and will pass through Brainerd on the midnight train to inspect the drainage ditches in the northern part of this state.

The distinguished party will be accompanied by W. H. Gemmell, the general manager of the Minnesota & International railway. Much work in the way of building drainage ditches has been done in the territory of and adjacent to this line of railway, and the work will do much to attract settlers to this northern country and to increase the value of all farming lands as well as making lands of agricultural possibility which before were nothing but unproductive swamps.

From the M. & I. railway the party is scheduled to pass over the Canadian Northern railway to view the drainage ditches in that neighborhood.

## AIR LINE TO THE BORDER

Minneapolis & St. Louis and Iowa Central Railroads Will Build Line Into Canada

### WILL TAP THE CUYUNA RANGE

Brainerd and Bemidji Stand Good Show of Being On This Railway Extension

Events are so shaping themselves that it is highly probable that the Minneapolis & St. Louis and Iowa Central railroads will build their air line railway extension into Canada through Brainerd and the Cuyuna range and northward through Bemidji and on to Winnipeg.

Newman Erb, the president of these railway lines, arrived in Minneapolis Saturday morning and made definite statement that the Hawley line will be extended into Canada.

Mr. Erb admitted that the Minneapolis & St. Louis will lease the Iowa Central line.

The rapid development of Northern Minnesota, more especially northern Minnesota, has each succeeding year been attracting the attention of the heads of the big transportation companies, with the result that the roads are closely watching every movement that would indicate the building of a new line.

That portion of the north country which appears to appeal strongly to the railway companies is the iron range district near and in Brainerd as well as the country adjacent to the Upper and Lower Red Lakes and to the Canadian boundary.

A proposed road from the twin cities to Winnipeg would undoubtedly be considered from an "air line" standpoint, and a glance at the railway map over the territory between these two points shows a line running through the Cuyuna range country at Brainerd, on northeasterly through Bemidji and extending over the proposed Bemidji-Warroad route to a connection with the Canadian Northern at Warroad or the Grand Trunk Pacific at Rennie, Man., and utilizing there or both of the Canadian lines to Winnipeg.

## A Medicine That Gives Confidence

Is Foley's Honey and Tar Compound.  
Mrs. T. J. Adams, 522 No. Kansas  
Ave., Columbus, Kas., writes: "For  
a number of years my children have  
been subject to coughs and colds. I  
used Foley's Honey and Tar Com-  
pound and found that it cured their  
coughs and colds, so I keep it in the  
house all the time." Refuse substi-  
tutes. For sale by all druggists.

## BROUGHT HIS TOOTHBRUSH.

But Saint-Saens, the Composer, Didn't  
Shock Parisian Society.

The Cri de Paris told the following  
story of Saint-Saens, the composer: A  
rare visitor to Paris, he is on his visits  
much sought after as a social lion. One  
day succeeded in persuading him to ac-  
cept an invitation to dinner, promising  
to send to fetch him and also to deposit  
him at his door when he left, his only  
stipulation being that he should be al-  
lowed to make his adieu at 10 o'clock.

The son of his hostess was dispatched  
in good time and found M. Saint-  
Saens in a velvet coat seated before his  
piano. He rose at once, however, and  
asked for ten minutes to dress, at the  
end of which he appeared, tying his  
white cravat. As he was shutting his  
door behind him he ejaculated:

"Good gracious! One minute more!  
I have forgotten my toothbrush!"

The young man, to his amazement,  
saw his guest dive into his dressing  
room and reappear with a toothbrush,  
which he put away in his breast pocket.  
On arriving home he told his moth-  
er, who in some uneasiness informed  
her friends, and everybody was in  
wonderment as to what the great com-  
poser was going to do with his tooth-  
brush.

Every eye was fixed on him through-  
out the dinner, watching him as he ate  
and drank and used his finger glass.  
In the drawing room Saint-Saens talk-  
ed with the ladies and played any  
piece that was asked of him till 10  
o'clock struck, when he bade farewell  
politely to the company.

The journey home was without inci-  
dent, and when they reached his house  
M. Saint-Saens simply offered to shake  
hands and say good night. Curiosity  
was too strong, though, for the youth,  
who said:

"Excuse me, mafter, but I should so  
much like to know why you so par-  
ticularly wanted to take your tooth-  
brush with you."

"Oh, my young friend," replied Saint-  
Saens, "it is very simple! My lock is  
very stiff, and I always hurt my fingers  
in turning the key. So I now pass the  
handle of my toothbrush in the ring of  
the key and turn it easily. Voila!"

## Two Great Painters.

When in Haarlem Van Dyck called  
upon Frans Hals and, without making  
himself known, said that he was an-  
xious to have his portrait painted, but  
as he was in a great hurry he could  
spare but two hours, at the end of  
which the portrait must be done. Hals  
went to work and finished it, and  
Van Dyck was much pleased. But  
portrait painting seemed a very little  
thing to Van Dyck, and he asked Hals  
to change places with him. Hals did  
so, and as Van Dyck finished his  
work Hals hugged him enthusiastically,  
saying: "You are Van Dyck. No  
one but he can do what you have  
done." And so the two great masters  
became acquainted.

for her old hen party tomorrow.—Bal-  
timore American.

## The Widow.

"I noticed as I came in," said the  
cutter to her dear friend the widow,  
"that you have made a change in your  
servants. You have a white butler  
now."

"Yes," sighed the widow, "a white  
butler, but a negro cook. I go into  
half mourning this season."—Harper's.

## At the Grand

The pictures at the Grand tonight  
are of great merit. "The Working  
Girl's Success" has a heroine who is  
one of the prettiest girls ever shown  
in motion pictures. This story un-  
folds a very interesting tale of love.  
"Proclaiming Archbishop Prender-  
gast" shows the procession of promi-  
nent ecclesiastics and the entry at  
the cathedral.

"Dad's Girls" is a western film and  
shows how the girls humbled a too  
presumptuous gambler. The way  
the older sister tossed her lariat and  
caught the man of the faro bank and  
dragged him through the water is  
certainly worth seeing.

"The Declaration of Independence"  
shows a moving picture story histori-  
cally correct, giving the events from  
the celebrated tea party in Boston  
harbor to the ringing of the liberty  
bell when the declaration of indepen-  
dence as drafted by Jefferson was  
adopted by the continental congress.  
Hancock displayed his grim humor  
when he affixed his name to the im-  
mortal document, exclaiming: "I  
guess King George can read that  
without his spectacles." The sing-  
ing of Al. Mraz is very good and  
crowded houses were the rule at the  
Grand last Sunday evening.

James C. Dahlman, "Cowboy" Mayor  
of Omaha, "Throws the Lariat"

Mayor Jas. C. Dahlman started his  
career as a cowboy, and is at present  
mayor of Omaha, and has the follow-  
ing record. Sheriff of Dawes Co.,  
Nebr., three terms; Mayor of Chad-  
ron, two terms; Democratic National  
Committeeman, eight years; Mayor  
of Omaha, six years, and in 1910  
candidate for governor of Nebraska.  
Writing to Foley & Co., Chicago, he  
says: "I have taken Foley Kidney  
Pills and they have given me great  
deal of relief so I cheerfully recom-  
mend them." Yours truly  
(Signed) James C. Dahlman.

## Be Sure of Your Baking

When you put a baking into the oven, are  
you always sure it will come out right? Are you  
sure it will be light and fluffy and tastily baked—  
or will it be a flat, soggy failure?

The whole thing hinges on the baking powder you use. So what's  
the use of taking chances in baking, when with

CALUMET  
BAKING POWDER

you can always be sure that every baking will be  
successful? Failure simply means time lost, materi-  
als wasted and the whole baking to be done over  
—and yet you take that chance whenever you don't  
use Calumet. For Calumet alone is unfailing in  
good results—Calumet alone guarantees success.  
Use Calumet and be sure.

Then you can bake with more certainty of good results. The  
baking will be more uniformly raised—lighter—tastier—more  
wholesome, because the materials in Calumet are so perfectly  
adapted to all baking requirements and then so carefully propor-  
tioned that failures are almost impossible.

Calumet shows a great saving in price over "trust" brands—and  
is much more economical in use than cheap, "big-can" brands.

Received the Highest Award at the World's Pure Food Exposition.

## What Botanists Do Not Know.

How water, commonly called sap,  
necessary to the life of a tree, passes  
from the roots to the topmost leaf and  
evaporates is a problem not yet solved  
by botanists. It is known that the as-  
cent is made chiefly in cavities in the  
sapwood only, the heart and bark serv-  
ing other purposes. That is the ex-  
tent of our knowledge of the matter.  
Beyond is mere conjecture, and every  
theory yet advanced has failed to  
stand the test of experiment.—London  
Spectator.

## An Old Family.

### Facts About Cole's Hot Blast Heaters

This is the only original HOT BLAST Stove. It has a heavy sheet iron jacket and two cast iron linings in the fire pot. The hot blast flue on top of the stove allows the carbon and gas which the burning coal forms, and as a result combustion takes place. In this manner NOT ONE PARTICLE OF COAL IS WASTED and you lose absolutely nothing by having good fuel escape in the form of smoke. Here is our proposition. Try a COLE'S HOT BLAST FOR ONE MONTH AND IF IT DOES NOT GIVE SATISFACTION, RETURN IT AND GET YOUR MONEY BACK. WE EXTEND LIBERAL CREDIT.

**METHOD.**  
The secret of getting through work is method. Order, it has been said, is God's first law. Let it be yours. Do not let your work accumulate upon your hands. It is not work that kills, but arrears of work. Work put off is work put on heavy interest. "Sufficient unto the day is the evil thereof." It becomes intolerable if it be laid upon tomorrow.

It is also found in the Red sea.

**An Amiable Maniac.**  
Australia once possessed an amiable maniac who had a pleasant little habit of getting on a train on Sunday as pulling the bellcord as soon as the train started. She—it was a lady—would then explain to the infuriated railway officials that Providence had given her special powers to stop trains traveling on Sundays.
